PROFESSIONAL SUMMARY

Results-driven BSIT graduate with 3 internships spanning software development, IT support, and audit operations. Proven ability to independently deliver full-stack systems — from offline-first mobile apps serving remote communities to production tools actively used in a company environment. Comfortable owning projects end-to-end: design, development, and deployment. Currently expanding into Golang and AI-assisted development workflows.

TECHNICAL SKILLS

Languages	PHP, JavaScript, Python, Dart, SQL, C++, Java, Golang (learning)
Frameworks & Libraries	Laravel, ReactJS, jQuery, Flutter
Mobile Development	Flutter with offline-first architecture (SQLite / Drift)
Backend & DevOps	REST API design, Docker, Git & GitHub, Vercel, Postman
AI & Design Tools	Claude AI, v0.app, Figma AI, Stitch Google, n8n
Core Strengths	Full-stack delivery, offline-first systems, database design, IT support

INTERNSHIP EXPERIENCE

Web Developer Intern

RightJob Solutions · Zamboanga City

Feb 2026 – May 2026

- ▶ Designed and launched discoverzamboanga.com, a public-facing tourism platform built on WordPress, now live and accessible to users.
- ▶ Built a Python-based image processing tool (convert, resize, background removal) adopted internally by the company — saving manual editing time across the team.
- ▶ Contributed to AI-assisted development workflows using Claude AI and v0.app.

IT Support Intern

Assault Armor Battalion · Zamboanga City

Jun 2024 – Aug 2024

- ▶ Resolved hardware and software issues for military personnel, improving workstation uptime and reducing repeat support requests.
- ▶ Installed and configured CCTV surveillance systems across the facility, strengthening physical security monitoring.

Documentation & Audit Intern

ZPPSU Accreditation Center · Zamboanga City

Jun 2023 – Aug 2023

- ▶ Audited and reorganized marine engineering academic files to meet CHED accreditation standards, directly reducing documentation errors during the audit cycle.

PROJECTS

SK Salaan — Youth Profiling System (Mobile, Web & API) | Flutter · ReactJS · Laravel · SQLite/Drift · MySQL

https://github.com/hikusama/sksalaan_frontend

- ▶ Architected and led development of a 4-repository offline-first system (mobile app, web dashboard, REST API, public website) designed for barangay officials in low-connectivity areas.
- ▶ Reduced manual data entry errors by 65% by building reliable offline sync logic that queues and merges records when connectivity is restored.
- ▶ Sole developer across the full stack — from database schema to UI — demonstrating end-to-end ownership.

Food & Beverage POS — Online Presence System | PHP · jQuery · MySQL

<https://github.com/hikusama/Food-Beverage-Online-Presence>

- ▶ Joined as backend developer; stepped up to full-stack when the project needed it, completing both frontend and backend to meet the delivery deadline.
- ▶ Delivered inventory tracking, transaction history, and purchase management for a live client company.

All Milk Tea — Point of Sale System | PHP · MySQL

<https://github.com/hikusama/All-Milk-Tea---public-info>

- ▶ Built a tailored POS system for a milk tea business covering order management, product catalog, and daily sales reporting.

Sta. Maria Elementary School — Enrollment System | PHP · MySQL

<https://github.com/hikusama/sta.MariaSystem-public>

- ▶ Delivered a scalable enrollment system end-to-end, now used to support DepEd-aligned student registration and administrative processing for the school.

Image Converter, Resizer & Background Remover | Python

<https://github.com/hikusama/image-converter-rjs-usage>

- ▶ Developed a multi-function image processing tool deployed in production at RightJob Solutions — not just a side project, but a tool the team actively uses.

Kling Video Format Fix Tool | Python

<https://github.com/hikusama/Kling-Video-Fix-Tool>

- ▶ Identified a video format incompatibility with Kling Motion Control and built a targeted fix tool to automate the conversion — solving a real production workflow problem.

GitHub Follower Automation Tool | Golang

- ▶ Built a CLI tool in Golang to automate GitHub follow/unfollow actions — a practical exercise in learning Go's concurrency and HTTP client patterns.

EDUCATION

Bachelor of Science in Information Technology

Zamboanga Peninsula Polytechnic State University

Graduating: May 19, 2026

CERTIFICATIONS & TRAINING

- ▶ NC II — Client and Server Servicing (TESDA)
- ▶ Certificate of Internship — Documentation & Audit, Marine Engineering Files (248 hrs) | ZPPSU Accreditation Center | 2023
- ▶ Certificate of Internship — IT Support Technician (248 hrs) | Assault Armor Battalion | 2024
- ▶ Certificate of Internship — Web Developer (483 hrs) | RightJob Solutions | 2026
